Our Curriculum

At Winklebury Federation, we strive to develop and nurture our children to be aspirational lifelong learners. We are very aware that the children's primary phase of education is the foundation of their learning journey and we endeavour to promote a love of learning that they can continue to grow with them throughout their lives.

We aim to do this through a progressive, rich and varied curriculum that engages children through a range of carefully planned experiences and opportunities to widen their world; as well as securing and embedding fundamental literacy and numeracy skills through a variety of real life contexts.
