Year 1

Autumn 2

Our School

In English we will continue to focusing on phonics to support both the children's reading and writing skills, following a daily phonics and spellings programme. The children will be developing their writing skills using the text 'The Tiger who came to Tea' by Judith Kerr. We will punctuate sentences using a full stop and will begin to use question marks. We will also be making a shopping list and a party invitation for when Tiger comes to tea. Please look out for more information about a teddy

In Maths the children will continue to develop their number skills and will explore numbers up to 20. We will also be learning to share objects equally and begin to explore fractions by learning to name a half as 'one of two equal parts'. We will be learning to count in 2s, 5s and 10s and we will learn to recognise 2D and 3D shapes.

How you can help?

Please practice reading as often as possible. The children will have a shared book for you to enjoy together and a reading book linked to their phonics. Please practice reading and writing the tricky words in the pink word book.

In History the children will be finding out about Winklebury School in the past. We will be comparing the school building, uniform, teachers, and will be looking at the key events of the school. The children will be become 'history detectives' and will be sorting evidence into different categories looking at the similarities and differences.

In Science we will be learning about 5 groups of animals - birds, mammals, reptiles, fish and amphibians. We are going to find out what animals need to survive and sort animals into herbivores, carnivores and omnivores.

In PSHE we will be continuing to use Happy Mind to explore how our brain

In R.E. the children will be describing a journey and talk about different journeys' ends. We will then focus on the Nativity story and why the end of the journey is important to Christians.

In Art the children will be exploring the work of designer Orla Kiely. We will be using pens and paint to create a repeating pattern in the style of Kiely including Christmas patterns.

In P.E. we will be focusing on increasing our strength and stamina in Drumba.

We will also be learning to move our bodies in different ways in dance. We will be learning a fairy tale dance by listening to the music and learning a sequence of movements.

In Computing the children will be coding using the Bee-Bots and will be moving the bees in different directions across a map.
