

SCIENCE
The Wonder
Lab

Wednesday 6th May 4:10 - 5:10pm

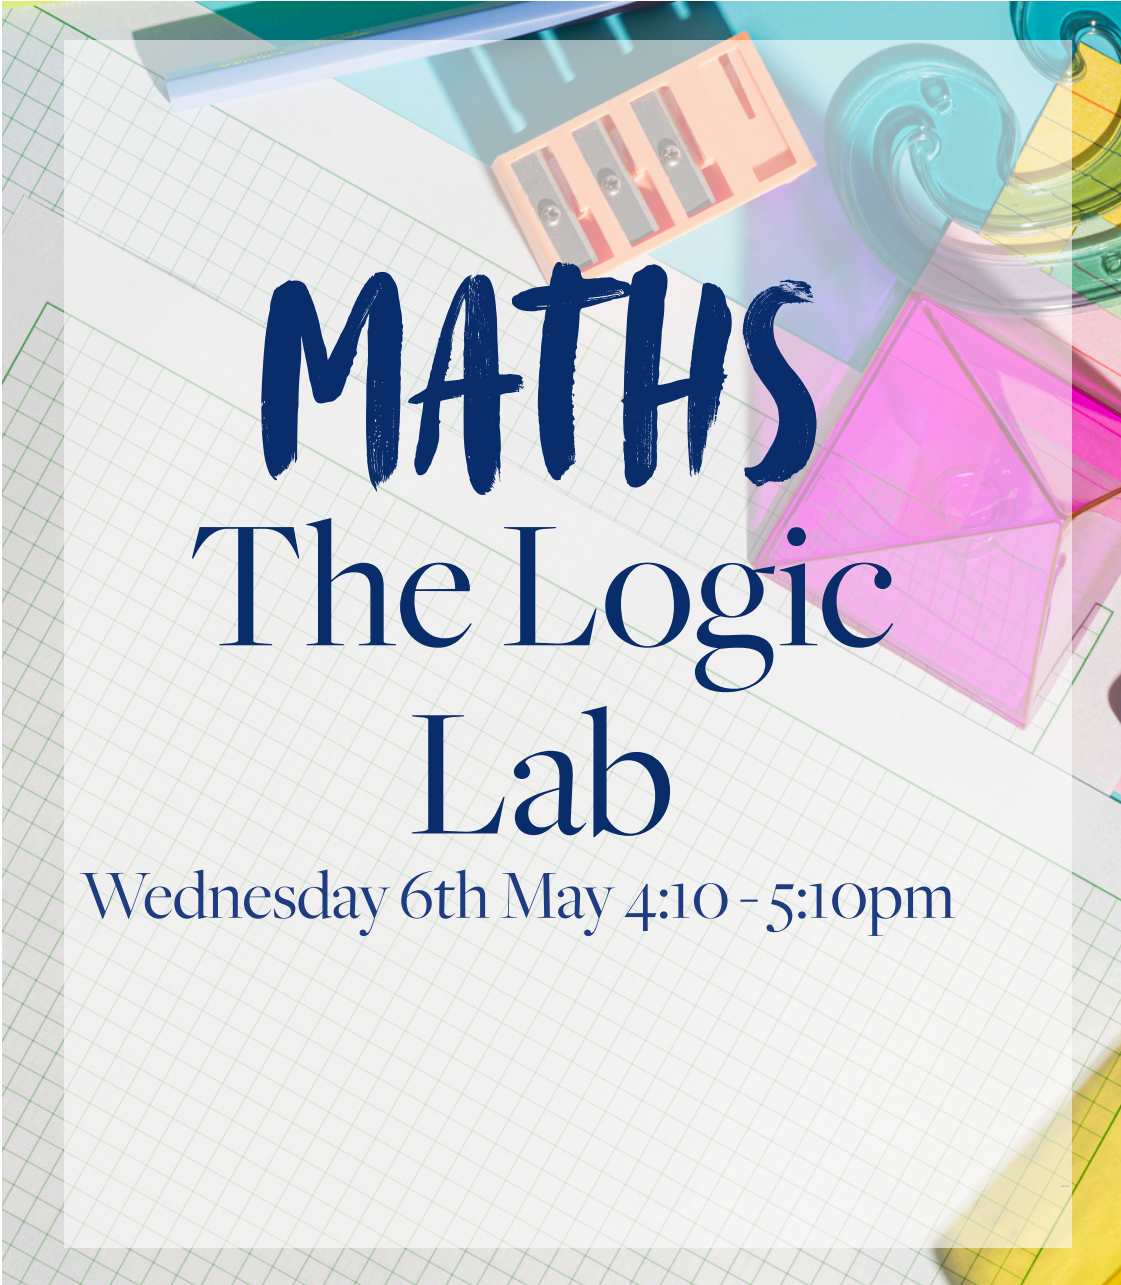

Step Inside The Wonder Lab!

Feel the force with our magnetism workshop!

Get hands on exploring magnetic forces. Uncover the invisible secrets of magnetic fields. Investigate how you can make an electromagnet and make it more powerful. There's something to attract everyone!

The workshop is designed to build curiosity, confidence and teamwork, giving pupils a memorable taste of what science at Perins is all about.

The Wonder Lab promises plenty of “wow” moments and an experience that will leave young learners eager to explore more.

MATHS

The Logic Lab

Wednesday 6th May 4:10 - 5:10pm

Exploring 3D Shapes with Perins Mathematics Department

Join us for a creative, hands-on exploration of 3D shapes. Students will build polyhedra using modular origami, discovering how faces, edges, and vertices fit together and why these structures matter.

Along the way, we'll show that secondary-school maths is about far more than numbers, it's about patterns, structure, and fresh ways of thinking. Everyone will take home their own origami creation at the end of the session.

Perins Approach: Parent Session

Wednesday 6th May 4:10 - 5:10pm

4:10 - 4:30pm: Culture, Ethos and School Community: Student Leadership and Voice

This short session will offer you an insight into the values that shape daily life at our school and the ways in which we empower young people to contribute, lead, and thrive. We will share how students are encouraged to take ownership of their learning, develop confidence through leadership opportunities, and play an active role in shaping the school community.

The session will show that our ethos underpins positive relationships, high expectations and a strong sense of belonging for every child at Perins. We would be delighted to welcome you and give you a glimpse of the Pastoral and House structures at Perins awaiting your child as they prepare for the next stage of their educational journey.

4:35- 4:55pm: Q&A with the Leadership Team

Hear directly from the senior staff who help shape daily life at Perins.

This informal and engaging session provides an opportunity to ask questions, gain insight into school priorities, and learn more about the vision guiding our community. It's a great way to stay connected, informed, and involved in the journey ahead.
