

Year 6 Summer

Mathematics

We will be: consolidating our use of the formal methods to multiply and divide, work with fractions, decimals and percentages, recover elements of measures and problem solving and algebra so we are ready to move to secondary school.

Writing

We are creating our biomes and writing non-chronological reports about them. We will also be writing persuasive letters to encourage tourists to visit them.

Reading

We will use our play script and rehearsal time to put all our reading skills into action.

RE

Our RE this term will be learning about peace.

Music

Learning the songs for our Production "Pirates of the Curry Bean".

Trips and important events

Trips

Performances

Leaver's assembly 22nd July

Art

We will develop our sketching and painting skills.

Computing

Learning about networks and the internet.

PE

Rounders, athletics & sports day

History

We will continue to investigate and understand the Shang Dynasty, Indus Valley and Sumer civilisations. We will link the development of these civilisations and compare them to the Egyptian civilisation.

PSHE—The focus this term is to continue to learn about well-being, keeping ourselves healthy as we grow and mature and learning about reproduction. In addition, we will think ahead to the changes into KS3.

Science

Learning about electricity and circuits, we will link this to our work in DT.

French

We are learning about using phrases to describe where we are and express preferences.

Design & Technology

We are making electric powered vehicles and using 'crumble' to program them.
